Chair’s note

Can you believe we are already almost halfway through 2021? While this year has not been the new beginning many people were hoping for, it has been a year that has continued to bring us new opportunities to learn about our communities and help those in need.

We are committed to helping the community with basic needs. In the fall, we awarded grants to our community partners. These grants varied from assisting in food supplies and providing virtual platforms. In 2020, we were able to award over $40,000 in grants to support our community. You can read more about a specific grant in this newsletter.

While this school year has been anything but normal and our Youth Advisory Council has not been able to be as active, we did want to take the opportunity to thank our seniors. These amazing students have led our youth grantmaking for the last four years and we are excited to see what they will do in the future.

We look forward to seeing where the rest of 2021 takes us and what new opportunities may allow us to serve our community.

Respectfully,

Kim von Kronenberger
Board Chair

Life Resources

Educating and equipping

Life Resources of Northern Michigan is a pregnancy center committed to creating a safe place for their clients to feel valued, equipped, and hopeful for the future. They offer a variety of free medical, support, and education services. Last fall, the Community Foundation supported their Parenting Education for Multiple Generations program. The grant assisted in providing updated parenting curriculum, including classes such as infant safe sleep, infant illness, car seat safety, and other essential topics.

“Providing these resources for our clients is invaluable,” said Amy Grandy, center director. “It allows us to educate and equip parents in sustainable ways. We are grateful for the support of the Community Foundation in this request.”
